

## **Polanyi Society-Sponsored Pre-Conference Seminar 31 May 2022, Nashotah, WI**

In conjunction with the [1-3 June 2022, conference at Nashotah, WI](#), the Polanyi Society will sponsor a one-day seminar open to graduate students and others new to Polanyi studies. This small pre-conference seminar has an opening session in the afternoon of 31 May with a second session in the morning of 1 June. This seminar is designed to interface with the 1 June opening conference afternoon workshop focusing on Polanyi texts addressing social dynamics. The seminar will provide an introductory overview of Polanyi's life and developing philosophical ideas and will focus on key elements of Polanyi's philosophy of science and its roots in his ideas about skills and articulation, subsidiary and focal awareness, and the "tacit dimension." The seminar will dig deeply into parts of *Personal Knowledge*, which treat topics such as skills and articulation, and perhaps a short late Polanyi essay. Copies of primary texts will be provided to participants for study before the seminar. The seminar discussion of texts will be facilitated by seasoned Polanyi scholars.

Those who attend the seminar and the 1 June opening conference day workshop are also invited to participate in the subsequent conference events on 2 and 3 June. Financial aid for registration, accommodations, and/or travel is available to scholars new to Polanyi studies who wish to attend both the pre-conference seminar and the conference. For further details, contact Andrew Grosso ([atgrosso@icloud.com](mailto:atgrosso@icloud.com)).
